

TECH TALK FOR EDUCATORS

ScopeIT Education – Term 4, 2020

Edition #17

HOW A SOLID DIGITAL TECHNOLOGIES STRATEGY CAN SET YOUR SCHOOL APART

As we begin the last term of 2020, it's the perfect time to reflect on how your school has coped this year. Has the disruptive effect of Covid-19 in delivering lessons remotely, shown the cracks in your school's digital literacy or did you easily adapt thanks to the backing of a solid digital technologies education?

ScopeIT Education values itself on imparting valuable digital technologies skills, not only to the students but also the teachers listening in on classes who ultimately raise the school's overall digital literacy level.

THE TOPICS ARE EXCITING AND STIMULATING FOR STUDENTS AND STAFF AND I HIGHLY RECOMMEND SCOPEIT AS AN ESSENTIAL LEARNING COMPONENT IN EVERY SCHOOL.

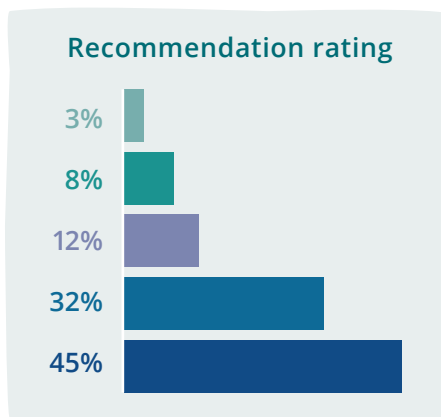

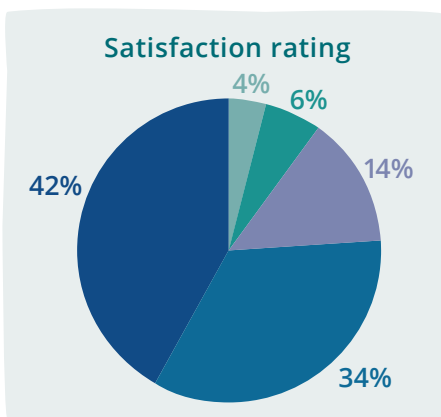

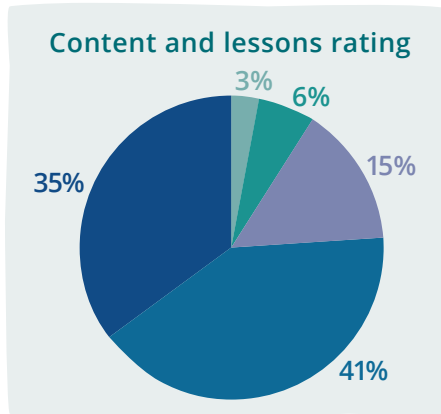

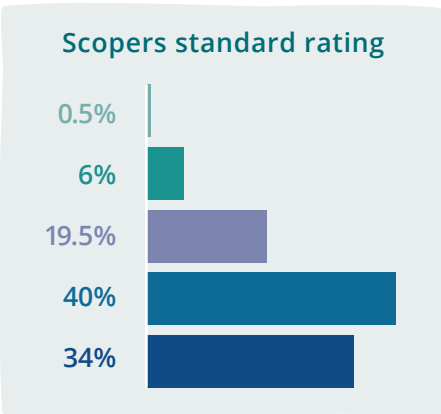

At the end of each term, we contact our current schools for feedback via an online survey to gather their honest evaluation and overall experience with ScopeIT Education lessons. The questions include ratings of our team, course content, overall satisfaction and if they would recommend us. We also give them the opportunity to tell us what worked well and which aspects could be improved, which helps us to refine our lesson content and delivery.

THE SCOPERS ARE HIGHLY PROFESSIONAL AND THE CONTENT IS EXCELLENT.

Through our feedback and results, we learn that a solid digital technologies curriculum can set our schools apart. Students graduate with high digital literacy knowledge and skills that better position them when they head to high school, further education and future employment. See our results on the next page.

OUR SCHOOL FEEDBACK

2019 feedback based on 149 completed surveys

Key 1 - strongly disagree 2 3 4 5 - strongly agree

I ONLY WISH OUR LESSONS WERE LONGER!

CONTENT WAS GREAT, STUDENTS HIGHLY ENGAGED AND MOTIVATED.

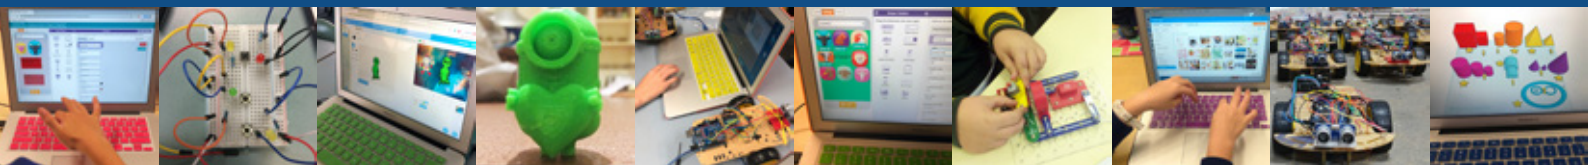

LESSONS WERE WELL SUITED TO STUDENTS' AGE GROUP AND ABILITIES.

THE STUDENTS WERE ENGAGED IN EVERY ACTIVITY AND LOOKED FORWARD TO COMING TO SCOPEIT EVERY WEEK.

BOOK US IN

For a detailed overview of how we can *customise your school's digital learning journey*, book us in for one of our morning/afternoon tea events and we will bring a **30 minute demonstration** of our digital technologies lessons for your educators to review - either in person or virtually.
